

Healthy people
Healthy animals
Healthy environment

VSF International

Vétérinaires Sans Frontières International

is a network of non-profit organizations working all over the world to support small-scale farmers and livestock keepers. With our projects and programs, we serve the most vulnerable populations whose livelihood depend on livestock, and we act collectively to support small-scale family farming, pastoralism, animal and human health, and a healthy environment.

“ Healthy animals are one of the conditions for improved human health, sustainable livelihood strategies, healthy nutrition and well-being of vulnerable populations.

Our mission

Our mission is to reduce poverty, contribute to food and nutrition security and improve the livelihoods and well-being of vulnerable populations by supporting smallholder farmers and livestock keepers and promoting food sovereignty.
